to the Directorate for Freedom of Information and Security Review, Office of the Assistant Secretary of Defense (Public Affairs)* for review.
*In the case of non-DoD User Agencies, requests for disclosure shall be submitted to that agency.

13. **SECURITY GUIDANCE.** The security classification guidance needed for this classified effort is identified below. If any difficulty is encountered in applying this guidance or if any other contributing factor indicates a need for changes in this guidance, the contractor is authorized and encouraged to provide recommended changes; to challenge the guidance or the classification assigned to any information or material furnished or generated under this contract; and to submit any questions for interpretation of this guidance to the official identified below. Pending final decision, the information involved shall be handled and protected at the highest level of classification assigned or recommended. (Fill in as appropriate for the classified effort. Attach, or forward under separate correspondence, any documents/guides/extracts referenced herein. Add additional pages as needed to provide complete guidance.)

DECOYS AND CHAFF
SECURITY CLASSIFICATION GUIDE

Ref. 11.c The contractor requires access to classified source data up to and including SECRET in support of the work effort. Any extracts or use of such data requires the contractor to apply derivative classifications and markings consistent with the source documents. Use of "Multiple Sources" on the "classified by" line necessitates compliance with the NISPOM, and use of bibliography.

Emission Security (EMSEC) Requirements (Addendum to DD Form 254, Block 11i)

EMISSIONS SECURITY ASSESSMENT REQUEST (ESAR)
FOR ALL CLASSIFIED SYSTEMS

a. The contractor shall ensure that compromising emanations (EMSEC) conditions related to this contract are minimized.

b. The contractor shall provide countermeasures assessment data to the Contracting Officer (CO), in the form of an ESAR. The ESAR shall provide only specific responses to the date required in paragraph c, below. The contractor's standard security plan shall **NOT** be used as a "stand-alone" ESAR response. The contractor shall **NOT** submit a detailed facility analysis/assessment. The ESAR information will be used to complete an EMSEC Countermeasures Assessment Review of the contractor's facility to be performed by the government EMSEC authority using current Air Force EMSEC directives. EMSEC is applied on a case-by-case basis and further information may be required to complete the review. Should this be the case, the contractor shall provide this information to the contracting officer when requested. After the evaluation of the ESAR by the government EMSEC authority, additional EMSEC requirements **may** be established.

c. ESAR contents shall include, as a minimum, the following information (NISPOM, paragraph 11-101c) (Note: A copy of your Automated Information System Security Plan(s) (AISSP) will suffice.

(1) The specific classification and special categories of material to be processed or handled by electronic means.

(2) The percentage of information to be processed. Identify the approximate percentage for each level of information processed including unclassified.

(3) The specific location where classified processing will be performed.

(4) The name, address, title and telephone number of a point-of-contact at the facility where processing will occur.

NOTE: Once the above information has been provided to the CO, no further reporting is required for equipment reconfigurations. However, if the facility is physically relocated to another geographical location, the information requested in paragraph c above **MUST** be furnished to the CO.

d. The prime contractor shall ensure that all subcontractors and/or vendors comply with EMSEC requirements when performing classified processing related to this contract. They will provide the above documentation through their prime to the contracting officer to complete the ESAR.
